### Key Messages for Hurricane Dorian

Advisory 25: 11:00 AM AST Fri Aug 30, 2019

1. Life-threatening storm surge and devastating hurricane-force winds are likely in portions of the northwestern Bahamas, where a hurricane watch is in effect. Residents should execute their hurricane plan and listen to advice given by local emergency officials.
2. Life-threatening storm surge and devastating hurricane-force winds are likely along portions of the Florida east coast by early next week, but it is too soon to determine where the highest storm surge and winds will occur. Residents should have their hurricane plan in place, know if they are in a hurricane evacuation zone, and listen to advice given by local emergency officials.
3. A prolonged period of storm surge, high winds and rainfall is likely in portions of Florida into next week, including the possibility of hurricane-force winds over inland portions of the Florida peninsula.
4. Heavy rains are expected over portions of the Bahamas, Florida, and elsewhere in the southeastern United States this weekend into the middle of next week.

For more information go to [hurricanes.gov](http://hurricanes.gov)

**HURRICANE DORIAN:** Storm continue to strengthen and is expected to reach category 4 hurricane strength. Dorian is moving slowly increasing the amount of rain and storm surge the region will be subjected to. FEMA has activated teams across the country prepositioning resources and capabilities to respond quickly following landfall.
